THIS IS FOR WEDDING VENDORS WHO:

like to slow down
and plan out a
wedding day with
a cup of coffee.

would much
rather browse the
office supply
aisle instead of
the new high tech
gadgets

love to underline,
circle, post-it,
color-in, and
doodle

are tired of low
batteries, no wifi,
monthly fees, and
staring at screens
all day

want to get to
know their clients,
instead of looking
down at an iPad
or fighting with
software.

want to put a little
fun and creativity
back into the
"nitty gritty" part
of their job!

WHY A PHYSICAL WEDDING ORGANIZER?

A NOTE FROM ABBEY GRIM:

Love stories are my full-time job. Nearly every weekend, a trusting soul invites me into their life & along for the ride on their *big* day. Then I get to go back to my office, and go through these memories and edit them so they are just right. These are my favorite parts of the job- when I get to be creative.

After I booked my first wedding back in 2009, to my dismay, I realized that

IT'S TIME TO SLOW DOWN AND PUT A LITTLE FUN AND CREATIVITY BACK INTO THE "NITTY GRITTY" PART OF OUR JOB!

running a wedding business was not just capturing big days and sharing the images. Weddings have SO MANY details to plan, sort through and keep track of.

I had so many options. Spreadsheets, software, forms- but after 8 years of searching for the right thing, I decided to make it myself. And so the Wedding Client Organizer was born.

I created blanks and spaces in the organizer SPECIFICALLY for wedding clients; something I haven't been able to find. I tried to think of any and all information I would ever want have in one place. Expenses, mileage, addresses, timelines, workflows... you name it!

SO, after a year of trial and error, presenting the book to focus groups, and finding the right materials, I'm so excited to share it with everyone in this amazing community!

It's time to slow down and put a little fun and creativity back into the "nitty gritty" part of our job.
